SURENDRA PONGURU

Hyderabad, India | 6300634953 | suriponguru777@gmail.com | linkedin.com/in/surendra-ponguru/ | surendraponguru.portfolio/ |

Professional Summary

- Results-driven **Front-End Developer** with 3 years of experience building scalable web applications using React, Angular, and modern frameworks. Adept at improving user engagement by 25%+ through responsive design, real-time features, and performance optimization. Proven expertise in Agile workflows, cross-functional collaboration, and delivering client-centric solutions. Passionate about leveraging cutting-edge technologies to solve real-world problems.

Professional Experience

Kanerika Software Pvt Ltd   Hyderabad, India
Software Engineer   July 2022 -present

- Designed and implemented responsive user interfaces with a focus on usability, accessibility, and performance.
- Enhanced user experience, achieving a 25% increase in user engagement by implementing real-time updates, animations, and interactive elements.
- Architected 3 reusable React/Angular components (e.g., dynamic forms, data grids) using Storybook, slashing development time by 35% and ensuring the design system consistency across the applications.
- Leveraged React and Angular frameworks to build scalable, maintainable front-end architectures that improved development efficiency.
- Adhered to Git version control and Agile methodologies, fostering seamless collaboration and project delivery.

Projects

FLIP (Angular JS, HTML, CSS)   Feb 2024 – Present

- Developed user-friendly interfaces based on project requirements to improve user experience.
- Revamped UI/UX for a SaaS platform, increasing user retention by 18% through accessibility-driven design and performance tuning.
- Identified and fixed performance and scalability issues to enhance application efficiency.
- Created reusable, scalable component models to streamline web design and layout development, improving consistency and maintainability.

PHI (React JS, HTML, CSS)   Jan 2023 – Jan 2024

- Designed and implemented various data visualizations to enhance data interpretation and decision-making.
- Built a dynamic query builder that enabled users to create customizable SQL queries, improving flexibility and control over data analysis.
- Optimized application efficiency by resolving scalability issues and streamlining component reusability.

Repora (React JS, HTML, CSS)   Nov 2023 – Jan 2024

- Designed an iframe URL generator to simplify third-party integrations for external platforms.
- Delivered client-requested features ahead of deadlines, earning recognition for exceeding expectations.

Technical Skills

Frontend: Angular, JavaScript (ES6+), HTML, CSS, Tailwind CSS, React.js, UX(Figma)
Testing Frameworks: Jasmine, Karma
State Management: Context API, Redux
UI/UX & Design: Figma
Tools: VS Code, Git, Windows
Methodologies: Agile/Scrum, RESTful APIs, Responsive Design

Education

Bachelor of Technology in CSE   **2017 – 2021**
Sri Venkateswara Institute of Science & technology, JNTU-A.   Kadapa, AP, India

Awards

- Consistently nominated as Employee of the Month, reflecting a strong commitment to excellence and impactful contributions.
Reason: Recognized as Employee of the Month for optimizing front-end performance and implementing reusable component libraries, and Revamped UI/UX for a SaaS platform.

Additionally

Languages: English, Telugu, Hindi.
Interests: Cricket, Travel.
